

### Moodle embedding video (based on HKU Moodle version 3.2.3)

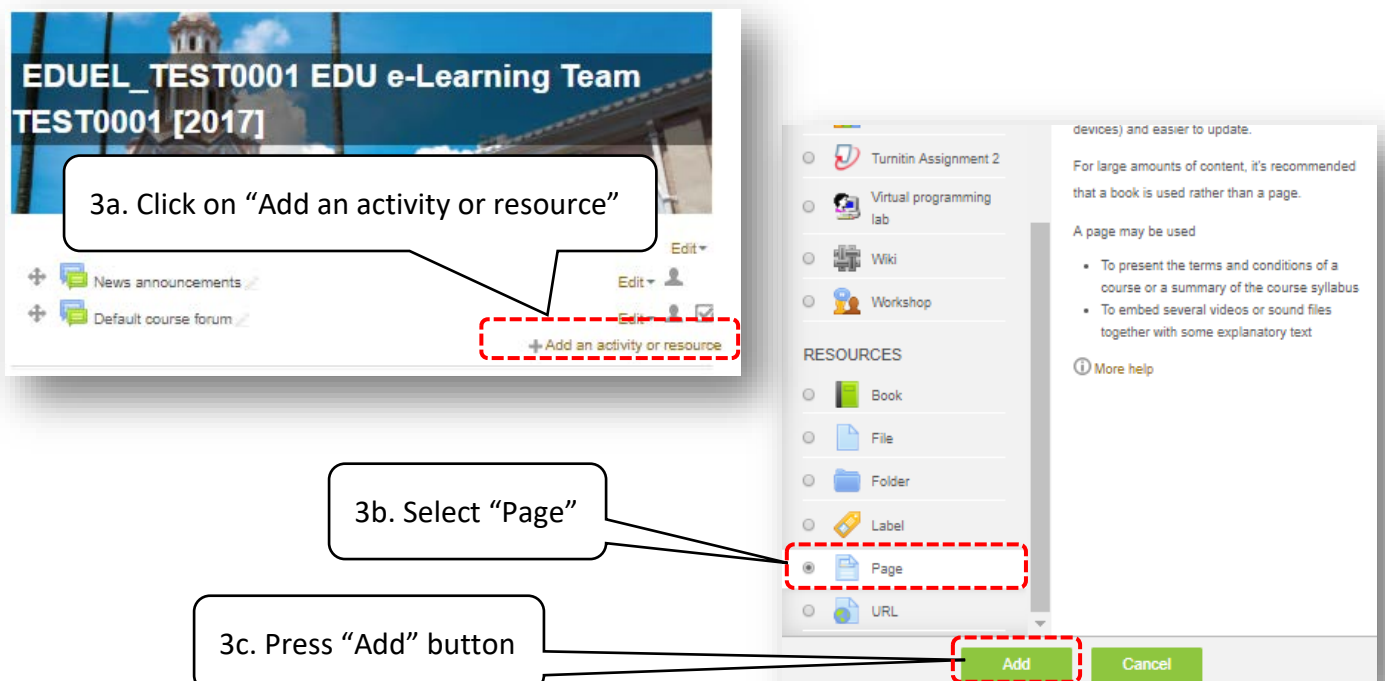

1. Before embedding the video on Moodle, please visit your video sources such as Youtube or Vimeo, and copy the **iFrame string**. For example, on Youtube, the **iFrame string** is in Share → Embed → iFrame string.

2. Please log in the HKU Moodle at <http://moodle.hku.hk/>, click on the  icon at the top right corner of the screen and select "Turn editing on".

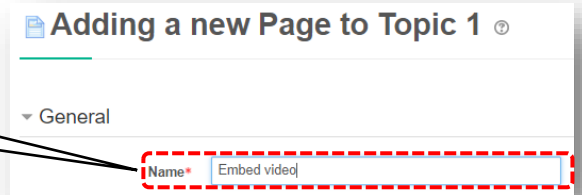

3. Click on "Add an activity or resource", select "Page" from the popup box and press "Add".

4. Please input the "Name" for the page.

4. Input a "Name" for the page

5. Click the "Show more buttons" icon from the "Description" field.

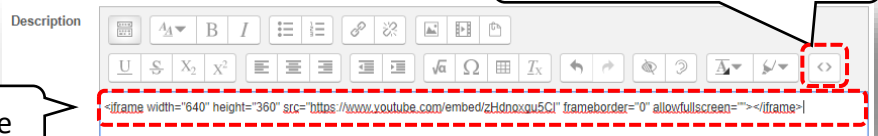

5. Click "Show more buttons"

6. Click the "HTML" icon from the lower right corner, then, paste the iFrame string into the description field.

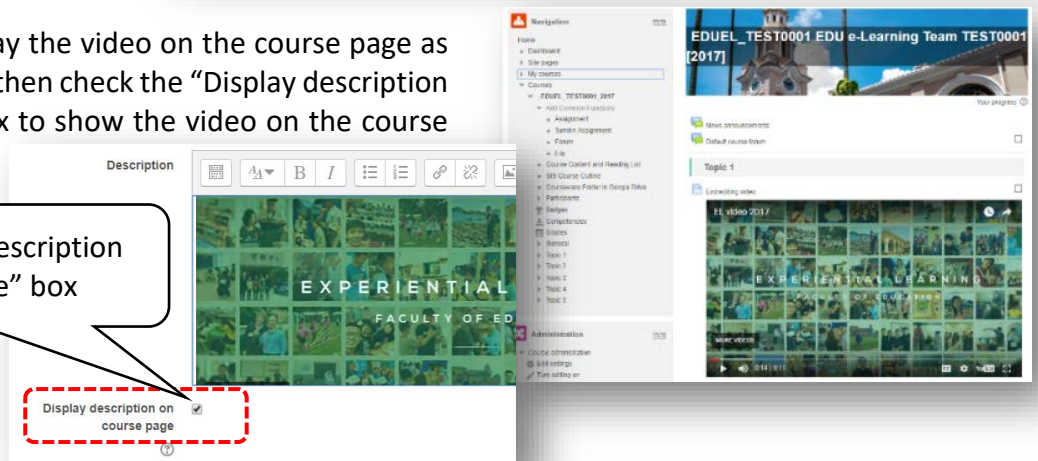

6a. Click "HTML"

6b. Paste the iFrame string here

7. If you want to display the video on the course page as shown on the right, then check the "Display description on course page" box to show the video on the course page.

7. Click "Display description on course page" box

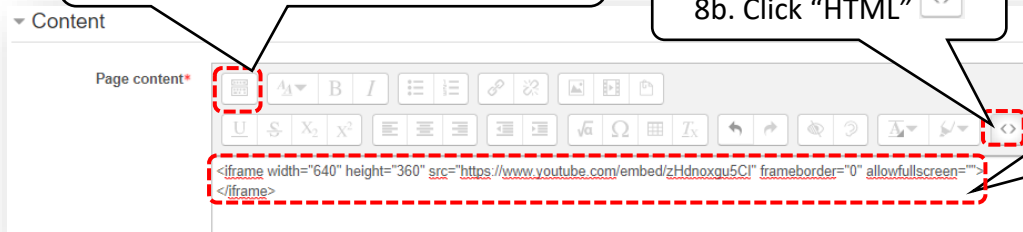

8. For the "Page content", please repeat step 5 and 6.

8a. Click "Show more buttons"

8b. Click "HTML"

8c. Paste the iFrame string here

9. Click on "Save and return to course" at the bottom to add page.

9. Press "Save and return to course" button
